

TE 250-Dr. Dorinda Carter Andrews
Fall Semester-2010
SIRS Feedback

- I know race is important, but I wish that we could've talked about the effects of social class, learning disabilities etc. more. Overall very interesting.
- I thought the class was great. I took the class for the teacher and am very glad that I did. I enjoyed the enthusiasm of the teacher and that of my fellow students.
- This was an amazing class. The material covered helped me feel more prepared to become a teacher and more understanding of human society.
- I truly enjoyed this class because there was a use of discussion over just lecture.
- I really loved this class! I appreciated the group discussions because we all come from such different backgrounds and could provide different insights. Thank you.
- Dr. Carter-Andrews was a GREAT teacher. I learned from the readings but also through personal experience that we shared in class. I enjoyed the way she promoted diversity.
- Excellent instructor, help keep class discussion moving. But a lot of work especially the readings.
- I would have to say that being more open minded about where people come from. Some people have never taken a course like this and their opinions need to be valued.
- There was too much reading at times and I feel as though it was really hard for me to read all the lengthy articles and write papers at the same time.
- This is a great course with a great instructor!! Enjoyed it very much.
- I enjoyed the class and I did learn a lot and I am happy I learned it because I believe it will help me for when I become a teacher. I thought the work load was a lot to handle though. We had so much work in so little time often.
